I. Agenda Items

- Standards of Care
 - Finalize Revisions
 - Schedule Reviews
- Revise NHC Supplemental Applications and Evaluation Tools

II. Key Decisions/Action Items

- The committee reviewed the final revisions that had been made since the last CoC meeting. Debbie Williams will finish the revisions and have a finalized document available on the NHC website (www.norfolkhomelessconsortium.org) for review before the October NHC meeting.
- 2nd Round reviews and 1st round reviews were scheduled and will be sent to Vickie Greene. Vickie may have to revise the schedule based on her availability so the calendar that was filled out is a draft.

III. Additional business

- The Committee believes that a priority setting session is needed before the 2008 Continuum of Care funding cycle to eliminate some of the issues that arose during the 2007 application process. The CoC committee recommends that the priority setting should be held after the November NHC meeting. The Committee recommended that Claudia Gooch from The Planning Council facilitate this session.
- The Committee discussed the renewal project and new project supplemental applications. Debbie Williams will create a new application and evaluation tool for renewal projects based on unmet need and outcomes. This draft application will be reviewed at the next meeting.

IV. Upcoming Meetings

- November 14 – 12:30pm
